

English-based Degree Program Course outline

Course title	Studies on International Monetary Economics
--------------	---

Credit	2
--------	---

Instructor	Masaharu Takenaka
------------	-------------------

Course outline
We read “ Exchange Rate and Open-Economy Macroeconomics” of “International Economics”(the 11th Edition by Paul R. Krugman, Maurice Obsfeld, Marc J. Meltiz 2018). Participants will receive the copy of each chapter of this book and provide a summary and a brief presentation based on each part of this book. We deepen our understanding on each issue through our discussion in the class.

Attainment objectives
Participants are expected to acquire knowledge and ability to understand international financial issues related to the foreign exchange rate.

Study Method
Participants will receive a copy of each chapter of the book and provide a summary and a brief presentation based on each part of the book. We deepen our understanding on each issue through our discussion based on the historical cases and data which the will be provided.
