## Course outline

Course title	Macroeconomics B
--------------	------------------

Credit	2
--------	---

Instructor	Hideyuki Mizobuchi
------------	--------------------

Course outline
<p>This class will explore the determinants of economic growth in the long run, as opposed to fluctuations in economic growth due to business cycles. We review the historical facts of economic growth and introduce basic models to explain it. Many growth accounting studies are introduced. We also focus on the measurement issues related to economic growth.</p>

Attainment objectives
<p>Students are expected to understand the current economic conditions in the long-run perspective.</p>

Study Method
<p>Lecture</p>
