## Course outline

Course title	Micro Economics B
--------------	-------------------

Credit	2
--------	---

Instructor	Kazuya Hyogo
------------	--------------

Course outline
<p>This course covers the core concepts and methods of microeconomics. The course contents include the topics of consumer demand and its foundation on preferences and budget constraints, production theory, applied competitive equilibrium analysis, imperfect competition, elementary game theory, and market failures such as externalities and public goods.</p>

Attainment objectives
<p>The goal of this course is to familiarize students with the basic models used in economic theory and the standard methods of economic reasoning.</p>

Study Method
<p>The class will be conducted in lecture format. Students should not hesitate to ask questions, in or out of the lecture. There will be weekly homework assignments. They should be handed in on paper.</p>
